Based on Alien®'s top performing Higgs UHF RFID Tag IC and a new compact Squiggle antenna design, the ALN-9562 delivers industry leading EPC Gen 2 range and reliability in a smaller form factor at competitive prices. ALN-9562 inlays are also World Tag compliant, enabling tags that operate consistently across certain RFID frequencies of the Americas, Europe, Middle East, Asia, and Africa

The Squiggle-SH (ALN-9562) is the newest member of Alien's family of Higgs powered UHF RFID inlays. Other members include: the Squiggle (ALN-9540) inlay, the best general purpose inlay available today; the 2 x 2 (ALN-9534), an omni-directional inlay for baggage and apparel; the M (ALN-9554) for high performance on plastics; and the Square-SQ (ALN-9529) for small item tags. All members of the family are manufactured using Alien's patented Fluidic Self Assembly (FSA®) process, which delivers high inlay volumes at low unit costs.
